China's Vending Market & Industry Are Growing at a Breakneck Pace!

In recent years, China's vending machines have grown at 30% CAGR. It is predicted that by 2020, there will be 138 million vending machines in China, yearly selling up to 100 Billion Yuan of fast-moving consumer goods according to a report by Forward. Meanwhile, China has become the biggest vending machine manufacturer and exporter in the world, with Guangdong contributing most of the export volume.

Preview of China VMF 2020

Receiving unanimous praise from worldwide insiders for the past few years, China VMF has become the most popular and largest annual exhibition in the global self-service vending industry. With 86% exhibitors from 2019 looking forward to 2020, it is expected that China VMF 2020 will congregate 700 exhibitors on a show floor of 50,000 sq.m. We have specially set aside a well-located International Pavilion for our overseas exhibitors to achieve better results.
